36F530T

36" (Diagonal) TruFlat™ Stereo Television

Features	Benefits
TruFlat™ Picture Tube	Reduces peripheral screen reflections & glare by over 60% compared to standard tubes. Offers a wider effective viewing area from any angle. Detail clarity adds realism.
Component Video Input (Y Pr Pb) on rear allows a single device with Y Pr Pb outputs (such as a DVD player, or a satellite receiver) to be connected.	Improves video quality by separating the signal into 3 video connectors. Provides more vibrant, sharper images compared to single video inputs.
Digital 3-Line Comb Filter	Separates black-and-white detail from color information to virtually eliminate edge crawls and rainbow effects while enhancing picture resolution.
GUIDE Plus+™¹ On-Screen Program Guide	Find out What's On! The GUIDE Plus+™¹ feature is a free, built-in service that provides instant listings of all your TV shows at the touch of a button.
Connections for 2 rear L+R+V devices (when Component Video input unused), plus 1 set of front L+R+V inputs. A rear L+R+S-Video can be substituted for L+R +V input.	Simplifies connecting other devices such as a game system, digital camera, or VCR. Stereo audio outputs offer selectable fixed or variable output.
Sound Logic™	Provides consistent volume levels throughout programming & channel changes. Eliminates annoying "blast" of sound during some commercial breaks.
Adjustable Color Warmth	User selectable color temperature (Cool, Normal, Warm) personalizes level of color balance. Provides color refinement in varying home settings & lighting conditions.
